- SSC
- GPA: 7.8/10

SKILLS

DESGINE SKILLS
- Photoshop
- Figma

DEVELOPING SKILLS
- HTML& CSS
- ReactJS
- JavaScript
- WordPress

TECHINICAL SKILLS
- SQL
- Python

PROJECTS

- **HTML,CSS (https://bindu31.github.io/html/)**

A travel website built with HTML, CSS, and Bootstrap featuring a responsive layout, navigation bar, and destination showcase. It offers easy access to explore popular travel destinations with a clean, mobile-friendly design.

- **JavaScript(https://mounika3110.github.io/jsworks/)**

Developed a Transactions project using JavaScript, HTML, and CSS for real-time updates and API integration. Built a responsive shopping app with product listings, shopping cart, and checkout features to enhance user experience.

- **ReactJS(https://mounika3110.github.io/reactworks/)**

Developed user-friendly e-commerce sites using ReactJS, offering smooth browsing and real-time updates. Integrated APIs for seamless shopping experiences across all devices.

- **Data-Driven Due Diligence: Uncovering Business Potential (MINOR)** Front End and Data Collection

Spearheaded a project focused on implementing data-driven due diligence for entrepreneurs across diverse domains, including education and real estate.

INTERNSHIPS

Process Mining
